

 BOSCH	Associate Consent Form for Internet usage	Version 1.0 RBVH/GM QMS Documentation Controller
--	--	---

This letter of agreement is about using the internet services and commitment of associate to ensure that each associate shall be in compliance with internal control in terms of internet usage for the business purpose.

I, am notified of and upon verifying the provisions below, hereby consent to Bosch Global Software Technologies Co., Ltd. ("Company") for accessing internet information for the business purpose. In order to ensure the high security of internet usage and avoid impact to the Company's business, following regulations to be followed:

Internet Usage Regulations:

1. All internet users must use internet for the right purpose of Company's business.
2. Each BGSV associate is subject to a limit of less than 2 GB (gigabyte) for internet usage per month (Exclude Intranet). In case if associates are required to use large volume of data exceeding this limit for the purpose of business, it requires prior approval from his/her line manager.
3. All internet usage must be in compliance with CI/ISP Essentials-Security in the Internet.

Please note, a list of internet users who exceed a limit of 2GB (gigabyte) without approval, will be sent to the respective Department heads.

With signing this letter of agreement, I give my consent, awareness, and commitment for using internet for the business purpose in order to avoid its effect to the network of Bosch to become overloaded and cause business impact.

I know that the access to the internet services can be limited temporarily or that I can be excluded from the services if

- I break the rules named above or It turns out that the private use of internet services has the effect that
 - The networks of Bosch become overloaded or
 - The safety of the IT infrastructure from Bosch is impacted negatively or
 - Other essential disadvantages for Bosch occur, e.g. if the access to company data is limited.
